PIECING together the **PERFECT** smile
for generations

“On September 9, 2007 my nine year old son Zachary woke up in pain and with a very swollen face,” writes SG, a patient of Dr. Matrullo and Associates. He said his tooth and mouth hurt. Of course, this is a Sunday, and Dentists are closed on Sunday. “I started calling various dentists in the phone book and I got no answer, or answering machines. I thought to myself, I am in trouble, and not only is it Sunday, it is opening day for the New England Patriots! Finally, I called Dr. Matrullo and Associates and got an answering machine with a message to call another number if there is an emergency. This number got me in touch with Dr. Matrullo at his house. I explained my situation and he met us at his office in an hour! He took x-rays, and the problem was an abscessed baby tooth. He took care of everything by pulling the tooth. My son used to fear the dentist and now wants Dr. Matrullo to be his dentist.”

*Thanks
S.G., B.G., and Z.G.*

Dr. Paul J. Matrullo, DDS has been improving patients' smiles for more than 30 years.

He opened his practice with the vision of giving his patients the stunning smiles they always wanted. In 1985, he opened a state-of-the-art practice on Park Avenue with two in-office labs and twelve spacious and well-lit treatment rooms complete with televisions to ensure patient comfort.

Making the best use of his achievements and credentials, Dr. Matrullo finds giving back to the community a rewarding experience. He founded a child identification program in Cranston, RI, for which he was awarded a Citation from the city of Cranston. He is a former president of the Cranston Dental Society and a former Crusade Chairman of the American Cancer Society. In 1995, he founded the Paul J. Matrullo Scholarship at New York University for dedicated students who would otherwise be unable to afford dental school.

Over the past twenty years, he has welcomed his associates: Dr. Joseph P. Matrullo, DMD; Dr. Guillaume Lepine, DMD; Dr. Italo Lozada, DDS, DMD (a periodontist); and Dr. William Bebrin, DMD (an orthodontist). To this day, Dr. Matrullo and his associates continue to provide the highest quality of general dentistry and cosmetic smile reconstruction.

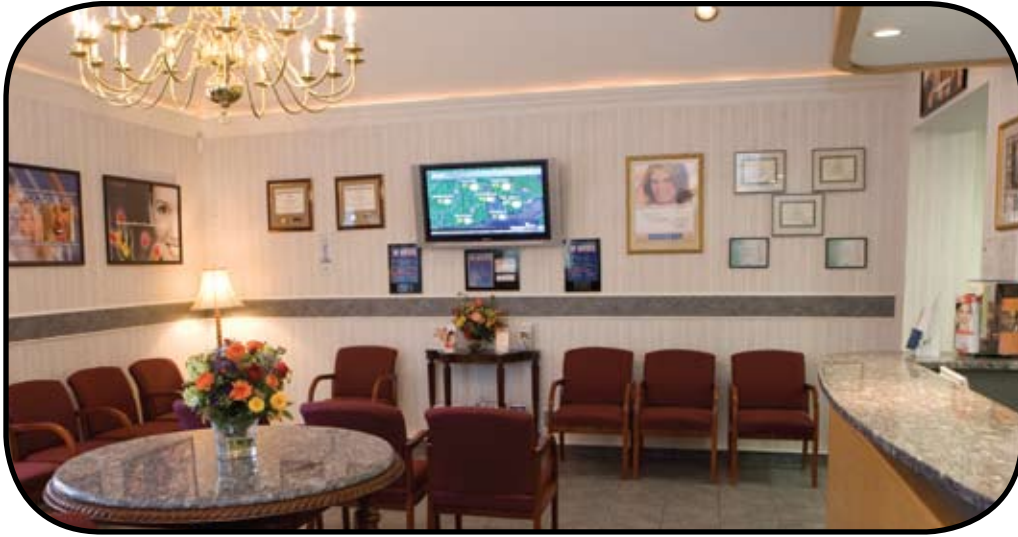

Dr. Joseph Paul Matrullo, DMD discovered his passion for dentistry as a young child by watching his role model at work—his father Paul. Joseph knew he wanted to experience for himself how it felt to make a difference in people's lives. He graduated Valedictorian from Providence College with a B.S. degree in Biology, and attained his DMD degree from the Tufts University School of Dental Medicine, where he was recognized by the International College of Dentists for professionalism and high clinical achievement. Dr. Joseph Matrullo joined his father in practice in 2004.

The dentists at Dr. Matrullo and Associates are well known within the community and respected within the field. Collectively, the doctors hold memberships from:

American Dental Association
Rhode Island Dental Association
Cranston Dental Society
New England Dental Society
Massachusetts Association of Orthodontists
American Academy of Implant Dentistry
New England Implant Study Group
American Academy of Advanced Oral Reconstruction
Associate Fellow to World Clinical Laser Institute

Providence Plantations Study Club
Seattle Study Club
Tufts University Alumni Association
Academy of General Dentistry
American Association of Orthodontics
Sleep Disorder Dental Society
Fellow to the Pierre Fauchard Academy
American Academy of the History of Dentistry
Diplomat and Fellow to American Society of Osseointegration

“I am proud to have served patients in our community. Through continuing education and state-of-the-art equipment, we are able to offer families the high level of care they desire. Our team and I give you a warm welcome and an ongoing commitment to your dental health. Change your smile, change your life,” explains Dr. Joseph.

The practice provides all aspects of general and cosmetic dentistry, including fillings, implants, teeth whitening, gum surgery, endodontics, and all-porcelain restorations such as crowns, bridges, and veneers.

“Our dentists practice the philosophy of treating smiles, not just teeth. We understand that a beautiful smile is more than just white teeth. According to the Golden Proportion, each tooth in the mouth contributes to the harmony of a perfect smile, and we apply this principle to every patient. For this reason we are known across New England for being among the leaders in cosmetic dentistry,” explains Dr. Paul.

If you have not done so already, we would like to invite you to schedule a complimentary no-obligation consultation. Come see what makes our office stand out among other cosmetic practices! We strive to provide a broad spectrum of quality dental care in an unprejudiced environment in order to earn the trust and adoration of our patients. For your convenience, we

offer evening and Saturday appointments and flexible financing options.

“I am in trouble, and not only is it Sunday, it is opening day for the New England Patriots!”
